

# BREAKFAST/SUPPORT CART

This is a multifunction serving cart providing the opportunity to offer a wide variety of meals or snacks from an easy to use mobile serving point. The cart can be utilized as a complete serving point in its own right or as a support cart to other mobile serving equipment such as the A la Cart Convection Rethermalization and Serving Cart.

## MODEL:

11360HC

## ELECTRICAL:

120/1ph/2.9 amps

## DIMENSIONS:

60" (w) x 32" (d) x 36" (h) –  
53" (h) to top of over shelf

## APPLICATIONS:

- **Breakfast Cart** – full continental breakfast with limited hot food serving capabilities
- **Support Cart** – provides additional storage and serving options to accompany a mobile hot/cold serving carts; accommodates all the ancillary items needed for the complete meal service including the ability to serve soups, hot cereals and hot beverages
- **Snack Cart** – ideal for roaming meal or snack services for patients, staff or visitors

Specific features such as a full size food well, insulated cold food drawer and toaster shelf with power outlet provide the operator with the opportunity to offer their customers a wider range of food options not available in other similar carts.
